SUMMARY

As a motivated and skilled graduate, I have completed a BEng(Hons) in Software Engineering. With a solid foundation in software development and a passion for innovation, I consistently strive to expand my knowledge and expertise. My educational journey includes successfully completing an HND in Software Engineering, which highlights my commitment to continuous learning. I am eager to contribute my skills to cutting-edge projects and make meaningful contributions within the dynamic field of software development.

TECH STACKS

Web Development: React JS, Tailwind CSS, PHP, Type Script, JavaScript, WordPress

Programming Languages: C#, Java(Beginner), Python

Database Management: MySQL, MS-SQL, NO-SQL(MongoDB)

Testing/Quality: Postman, Thunder Client, Selenium, JMeter

APIs & Tools: RESTful API, Firebase(Beginner), GCP(Beginner)

IDE: VS-Code, Visual Studio, intellij idea, Pycharm, Android Studio

Version Control and others: Git, GitHub, Docker, NodeJS, Figma(Software)

Programming Paradigms: Object-Oriented Programming (OOP)

Operating Systems: Kali Linux, Black Arch Linux, Ubuntu, macOS, Windows

PROFESSIONAL EXPIRIENCE

Full Stack Developer

Max IT Solutions (PVT) LTD | Kandy, Sri Lanka   October 2024 – July 2025

- Collaborated with cross-functional teams to design, develop, and maintain full-stack web applications.
- Contributed to frontend and backend development, ensuring functionality, performance, and scalability.
- Assisted in deployment, version control, and continuous integration to support efficient software delivery.
- Participated in code reviews, testing, and debugging to ensure reliability and quality assurance.
- Supported ongoing system enhancements and maintenance to improve overall performance and usability.

Technical Support

Max IT Solutions (PVT) LTD | Kandy, Sri Lanka   May 2024 – October 2024

- Provided technical assistance to clients, resolving hardware, software, and network-related issues efficiently.
- Installed, configured, and maintained computer systems, software applications, and IT infrastructure.
- Assisted the development and support teams in system troubleshooting, updates, and testing processes.
- Delivered excellent customer service by identifying issues promptly and ensuring minimal downtime.
- Maintained accurate records of support requests and implemented improvements to enhance service quality.

Freelance Full Stack Developer

Self Employed | Freelancer | Offline Clients   January 2024 – Present | Part-Time

- Developed and deployed 8+ web applications using MERN stack, PHP, WordPress, Tailwind CSS, Shadcn, SQL, and PostgreSQL.
- Built custom web solutions and managed full project lifecycle, including design, development, testing, deployment, and maintenance.
- Maintained and upgraded existing websites by adding new features, redesigning interfaces, and managing domains.
- Collaborated with stakeholders to gather requirements and deliver high-quality, functional, and responsive applications.

EDUCATION

BEng.(Hons) in Software Engineering

Esoft Metro Campus (London Metropolitan University) • Kurunegala, Sri Lanka • 2025

HND in Software Engineering

Esoft Metro Campus (Pearson) • Kurunegala, Sri Lanka • 2024

Diploma in Information Technology

Esoft Metro Campus (Pearson) • Kurunegala, Sri Lanka • 2022

CERTIFICATIONS

Docker

Great Learning • 2024

• Gained practical knowledge in containerization using Docker for application deployment.

• Developed skills in managing and deploying applications in isolated environments, enhancing scalability and portability.

• Learned to streamline development workflows with Docker, improving collaboration and consistency across platforms.

OOP in Java

Great Learning • 2024

• Gained hands-on experience with core OOP principles (inheritance, polymorphism, encapsulation, abstraction).

• Strengthened Java programming skills for building scalable and maintainable software.

• Developed a solid foundation for applying OOP concepts to real-world projects.
